

NOTES FROM DAWN

with hope, life is more than just bearable

October 29, 2013 by [an uncommon girl](#)

[\(http://dotsontots.com/\)](http://dotsontots.com/)

Dots on Tots is a mom created, small business that's sure to grow in popularity. They offer newborn and toddler hat designs for protection (the ear, nose, and throat are especially sensitive in young children) and use low-impact dyes, eco-friendly, breathable, irritant-free fabric for comfort.

The Dots On Tots Noise Reduction Hat

Our Noise Reduction Hat is a combination of Ear Protection Hat and infant Noise Reduction Hat in one. Our soft organic cotton baby hats feature baby hearing protection inserts, which can be removed and you'll get a regular ear flap hat. The Noise Reduction Hat is designed to reduce the outside noises and try to protect baby's ears as much as possible.

pros

- ♥Excellent for Fall & Winter
- ♥Soft and durable organic cotton
- ♥Combination ear protection and noise protection hat
- ♥Made in the USA and comes in Eco friendly packaging
- ♥Free shipping
- ♥Adorable

cons

*Love the white but it's the only color this hat comes in.

This post courtesy of Autumn, a Notes From Dawn contributor.

Notes From Dawn received the Noise Reduction Hat from Dots On Tots in exchange for an honest review. A positive review is not guaranteed, and all opinions are my own. No other compensation was received.
