Dots on Tots a baby and toddler headwear company that specializes in baby and toddler hats made from 100% all-natural, certified organic cotton. **Dots on Tots** was created by a mother of two and is based on the idea that newborn skin is often very sensitive and needs to be protected.

In addition, it focuses on the importance of choosing the right clothing to avoid allergic reactions. The innovative hat design features flaps that serve to protect infants and toddlers from cold weather, wind, and ear, nose and throat infections. The brand also offers special ear protection hats that feature an added benefit of **50% noise-reduction ear inserts, shielding infants and toddlers' delicate ears from loud sounds**. The collection boasts their hats with ear flaps in organic cotton, organic cotton fleece and merino wool, and also includes organic knotted hats, organic reversible sun hats and special ear protection hats in organic cotton.

My Review: what I really like about the infant hats is that it covers their ears. This is PERFECT for winter time, especially since babies ears are so sensitive to that cold breeze.

This hat pictured above called "Reversible Sun Hat" is perfect for play dates at the park, or anytime you're little one is in the sun. I love that it covers my daughter's ears and protects her head from the sun. Also, having it tie underneath insures that the hat won't fall off.

Make sure you check out their site: www.dotsontots.com for more details. They are running a sale right now too.

Please note that I received no form of monetary compensation for this post. The opinions expressed in the review are my own and were not influenced in any way.
