## Dots on Tots: Organic Children's Hats

~Post made possible by Dots on Tots~

*Dots on Tots is a baby headwear company, specializing in baby & toddler ear flap hats made from natural, certified-organic cotton. The owner/designer of the company, Olivia Entin, holds a Master's Degree in fashion design and technology and is a mother of two who knows the importance of natural and comfortable clothing for babies. Newborn skin is often very sensitive and it is important to choose the right clothing to avoid an allergic reaction. An important aspect of keeping children healthy is to protect their ears, and this is what led Olivia to design this unique "aviator" hat. The hats are absolutely seamless for extra comfort, double layered, and feature adjustable soft Velcro closure on the flaps. All hats are eco-friendly, breathable, irritant-free, non-allergic and made in the US.*

Dots on Tots makes super adorable hats to protect little one's heads. The hats are available in a variety of sizes from infant to 4T. I was sent the hat with flap in organic cotton for Lil Sis to try out.

The hat is super soft and I wish I could snuggle up in it. It is the perfect hat for days that are just a little chilly. Here in Florida this is the perfect hat for all winter long. Just enough to keep my little one warm without overheating. For those of you that actually get to see snow in the winter they also have them in fleece.

- 100% certified organic soft baby cotton
- Double layered, seamless
- Soft velcro closure
- Low-impact dyes
- Fabric is manufactured in the USA
- Made in USA

They also make Organic Cotton hats with removable ear protection in the ear flaps. I love the idea of protecting a newborn's ears from loud noises!

- Features inserts that protect your baby's ears from loud, potentially harmful outside noises
- Flaps have 3 layers (inner layer is made from lightweight organic fleece for extra comfort)
- Pockets on flaps that contain 4 layered removable inserts made from natural hemp fleece

They also have the cutest knotted baby hats I have ever seen! Makes me want another baby just to put one of these hats on their head!

Check out these adorable hats from Dots on Tots. I am one of those moms that think babies and little kids just look adorable in hats! Keep baby's head comfy with hats with super soft organic cotton!
